

## **Press Release**

### **Re - Horsham Football Clubs progress towards finding a new home**

The Holbrook Club Directors are pleased that, at last, there seems to be positive progress after a prolonged period of uncertainty for both The Holbrook Club (THC) and Horsham Football Club (HFC). THC is an integral part of the overall solution that will see HFC find, secure and build a new home.

THC's goal has always been to provide the maximum community and sporting facilities at the North Heath Lane site at an affordable price. THC is effectively a non profit making organisation, with all our profits reinvested in the Club facilities.

THC would like to clarify the position regarding recent comments made by HFC, regarding their offer of a 21 year lease to THC. This has only been a verbal offer. To date, there have been no discussions regarding the substance of any such lease. (e.g. Terms and Conditions, Rent etc).

THC look forward to entering substantive negotiations with HFC on the new proposed lease that will secure THC's future and thereby allowing THC to lend it's full support to HFC's bid to secure a new home.

**The Holbrook Club Directors**
